2010 Results of Corporate Governance in Canadian Small- and Medium-Sized Enterprises

In 2007, the Clarkson Centre for Board Effectiveness (CCBE) began researching corporate governance practices in Small- and Medium-Sized Enterprises (SME). Through interviews with directors and institutional investors CCBE was able to identify key governance issues that affect SMEs. A scoring methodology was developed based on these issues and used to assess the corporate governance practices of a random sample of corporations. The original sample in 2007 consisted of 100 companies that are publicly traded on the TSX with a market capitalization less than $500 million. The 2010 sample comprises 97 companies that have been scored in previous years. All company documents used were dated between December 7, 2009 and November 29, 2010.

To access the details of the methodology, click here or on the table headers.

The following are the results of the scoring for those 97 corporations scored.
