

## **John Hull**

John Hull is the Maple Financial Professor of Derivatives and Risk Management at the Joseph L. Rotman School of Management, University of Toronto. He is an internationally recognized authority on derivatives and risk management. He was, with Alan White, one of the winners of the Nikko-LOR research competition for his work on the Hull-White interest rate model and was in 1999 voted Financial Engineer of the Year by the International Association of Financial Engineers. He has acted as consultant to many North American, Japanese, and European financial institutions.

He has written three books "Risk Management and Financial Institutions" (now in its second edition), "Options, Futures, and Other Derivatives" (now in its eighth edition) and "Fundamentals of Futures and Options Markets" (now in its seventh edition). The books have been translated into many languages and are widely used in trading rooms throughout the world, as well as in the classroom. He has won many teaching awards, including University of Toronto's prestigious Northrop Frye award,

Dr. Hull is co-director of Rotman's Master of Finance program. In addition to the University of Toronto, Dr. Hull has taught at York University, University of British Columbia, New York University, Cranfield University, and London Business School. Earlier in his career he worked as a corporate planning analyst with British Shoe Corporation. He is an Associate Editor of eight academic journals.
