Patient records, integrated Dot Health

Patients in their 90s easily use platform

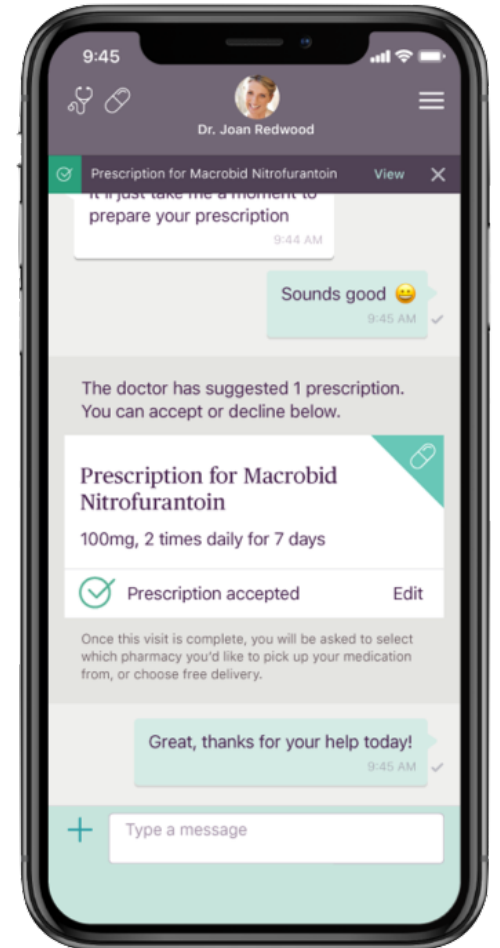

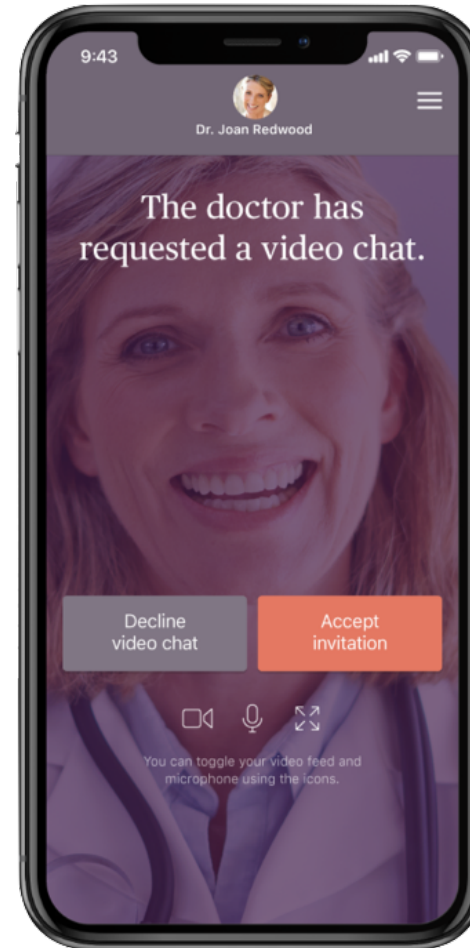

Additional specialties including a robust mental health offering: MSW, RSW, psychiatrists and psychologists

Our user experience sets us apart - simple and intuitive for users

The future is here & it is AWESOME. Online doctor's appt with @getmaple: **25 min start to finish** (including acct creation), prescription sent direct to local pharmacy (Patient tweet)

Amazing. Ease of use, efficiency of doctor, and the process took less time than to get to a walk-in. It also **saved me the embarrassment of having a difficult health conversation face to face** (Patient, 5-star rating)
